

Desoldering wick 1.50 mm 3.00 m

General information

CHEM-WIK M2 1.5MM 3.0MTR the industry standard in desoldering braid for all service and repair - anything less is not worth the risk! This light gauge, pure copper braid features excellent thermal conductivity at lower temperatures for the fast and easy removal of solder. Responds up to 50% faster than conventional desoldering braids. A purified rosin type flux is ultrasonically applied to protect the copper from oxidation and to increase the wicking action of the braid.

Specifications

Colour:	yellow
Width:	1.5
Length:	3000

Sales information

Order code:	CHEM-WIK M2
Product description:	Desoldering wick 1.50 mm 3.00 m
Brand name:	ChemWik

Quantity	LxWxH (mm)	Weight
